Amendment A (Revision 1)

Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Sir:

In response to the Office Action Mailed 2005 June 02, please amend the above application as follows:

Claims 1-9 (Canceled)

10. (Currently Amended): A golf swing plane training apparatus, comprising:

~~end attachment means comprising first end attachment member and second end attachment member adapted to extend laterally; and~~

a pair of elastic cords suspend substantially parallel to the ground and parallel to each other at a ~~predetermined~~ height; ~~ranging from a level approximate to the knees to a level approximate to the waist of a golfer at address.~~

means for suspending said pair of elastic cords having sufficient reinforcement to allow the repeated urging and relieving of forces upon said pair of elastic cords from a multitude of directions, whereby a golfer can swing a given golf club between said pair of elastic cords to determine if said swing is correct.

11. (New): The golf swing plane training apparatus of claim 10, wherein means for suspending said pair of elastic cord comprises:

a free-standing frame structure, comprising:
